Member Handbook

Council for Global Brand Building (CGBB) | Edition 2026 (November)

CGBB membership is open to companies, brands and professional organisations that share the Council's mission, admitted through open application and Secretariat review. Membership runs one year from approval. There are two plans: **Basic** (free) and **Advanced** (US$315 a year).

I. Membership benefits

Basic membership • free

1. A CGBB Website Trust Credential (trust.json), signed by CGBB, that AI agents and buyers can check against the live CGBB registry
2. The CGBB Member badge for your website, linked to your live record
3. The Brand Trust Baseline self-test: an indicative status, score and priorities, kept private
4. A Certificate of Membership, to be shown according to CGBB usage guidelines
5. Priority access to CGBB research reports and the member newsletter
6. Invitations to CGBB forums, closed-door meetings and industry exchange events
7. Priority participation in CGBB surveys, interviews, case studies and thematic research, with attribution according to contribution
8. A members-only line to the Secretariat, and the right to refer organisations for membership

Advanced membership • US$315 a year • everything in Basic, plus

1. A full Trust Review: CGBB checks the evidence behind all 15 indicators of the Brand Trust Baseline
2. The full, downloadable Trust Review report, including what to improve
3. Your Website Trust Credential (trust.json) upgraded to the CGBB Verified Trusted level at 80% or higher (with evidence support of at least medium and no unresolved major risk): it carries your Baseline score and is backed by the official third-party Trust Review, so AI agents and buyers can check an independent trust rating, not only membership
4. The Verified Trusted badge for your website, showing your score and linked to your live record
5. Further reviews once a month during your membership, each with a report on how to improve or maintain your rating
6. Below 80%, your membership stays Advanced, and CGBB gives you supportive advice, based on your report, on how to reach the 80% rating
7. A referral trust point: when a brand referred by a Verified Trusted Advanced member becomes an Advanced member, that brand and the referring member's brand each receive one extra point in their Trust Review

II. Getting started

In your member account at cgbb.org/account, under "Get set up":

1. Confirm your website by adding a short code to its DNS or as a small file
2. Publish your Website Trust Credential at yourdomain.com/.well-known/trust.json. We recommend using an AI agent to set this up
3. Add the CGBB Member badge to your website footer, linked to your live record
4. Run the Brand Trust Baseline self-test. It opens once the badge is on your website, which shows that you control the website

III. Basic obligations

1. Endorse and observe the CGBB mission and charter, and uphold the Council's reputation
2. Ensure application information is accurate and report any change in organisational details
3. Refrain from making commitments or acting in the name of CGBB without authorisation
4. Refrain from presenting membership as CGBB certification, rating, endorsement or guarantee
5. Show only the badge and level that your live CGBB record holds, and remove them if membership lapses
6. Maintain confidentiality of non-public information from research and member exchanges

IV. Co-building initiatives

The following are voluntary and are not conditions of membership renewal.

- Follow the CGBB LinkedIn page and engage with or share its content where convenient
- Share brand globalisation cases, join research interviews or surveys, and offer industry views
- The disclosure scope of any case, data or organisational information is agreed in advance

This document sets out the benefits and obligations attached to CGBB membership and is intended solely to describe membership status and its scope. Membership does not constitute certification, rating, endorsement or commercial guarantee by CGBB. The CGBB Secretariat reserves the right of final interpretation.
